

## March 2009 Product Spotlight, The 495 Cage from Prevue Hendryx

### Enter to win a 495 cage from Prevue Hendryx!

Posted: March 2, 2009 2:30 p.m. EST

Available in a dark red, hammertone finish, the #495 Small Animal Cage from Prevue Hendryx features small wire spacing and solid metal ramps and platforms that make it an ideal cage for rats and chinchillas, as well as baby ferrets. The cage measures 31 inches long by 20.5 inches wide by 40 inches high (the interior cage height is 28.25 inches). It has 3/8 inch wire spacing. The large front door and smaller rooftop door allow for easy access to pets. The pull-out bottom grille and tray make cleaning quick and easy. The wind-bell lock, on the bottom of the cage, prevents pets from pushing out the tray if the cage is used without the grille. A bottom shelf is also included for storing extra food, treats and supplies.
